REBELS ENTER CITY OF TAMPICO

Federals Retreating by Way of Railroad Leading to San Louis Potosi.

HEAVY LOSS OF LIFE.

Victorious Soldiers in Pursuit of Federals—Few Details of the Recent Bloody Battle.

Washington, May 14.—Evacuation of Tampico by the Mexican Federal garrison began at 12.50 yesterday, according to a relayed wireless dispatch to the Navy Department from Rear-Admiral Mayo. The Federal troops were leaving by the railroad.

That the rebels encountered desperate resistance in their final attack, and that they were compelled to carry their fight to the heart of the town was indicated by Rear-Admiral Mayo's report. He reported that at 11 o'clock today when it was reported the rebels had occupied Tampico, there was heavy rifle firing in the plaza, and that big gun firing continued.

Advices received by Constitutionalists here said the Federals were evacuating Tampico, but details were lacking.

The Federals were retreating by way of the railroad leading to San Luis Potosi, and it was assumed that they hoped to reach Pachuca, the terminus of a railway line that leads indirectly to Mexico City. The railroad out of Tampico to Monterey is held by the Constitutionalist.

Monterey, Mex., May 14.—Tampico was occupied yesterday evening by Constitutionalists under command of Generals Pablo Gonzales and Luis Caballero. Loss of life was heavy on both sides. A heavy force has been sent in pursuit of the Federals who are said to be attempting to reach San Luis Potosi by rail. The railroad out of Tampico runs through the Panuco river bottoms. The Constitutionalists, under General Eulalio Guiterrez, hald many points on the Tampico-San Luis Potosi line as far east as Cardenas, which is sixty-three miles east of San Luis. It is doubtful, even if the Federals manage to escape from Tampico by rail, if they can get by Guiterrez.

Washington, May 14.—The United States may recognize the belligerency of the Mexican constitutionalists. Formal demand that it do so is expected to be made by General Carranza almost immediately. With Tampico, the second most important seaport in Mexico, in his possession, and with Mazatlan's fall an almost immediate certainty, the success of the revolution seems assured. But arms and ammunition are again a necessity. Without them the constitutionalists cannot move against Mexico City and the South. And unless their belligerency is recognized the United States cannot permit their importation either from the United States or through the port of Vera Cruz. Therefore the constitutionalists junta here is in constant communication with Carranza and his provisional cabinet, debating the advisability of asking that they be accorded belligerent rights.

And in view of the openly expressed friendship of the Administration for Carranza and Villa it is believed and Villa it is believed the President would be willing to accord such recognition unless a plan can be devised whereby the mediation proposals, to be made by the A. B. C. representatives, can be made satisfactory to the constitutionalists.

The fall of Tampico overshadowed all else today. It has served to emphasize the extent of enormous territory already held by the Carranzistas. And it also emphasizes the almost complete isolation of Huerta. His revenues are completely interrupted.

"ON TO MEXICO" THE CRY.

Constitutionalists Confident of Capturing The Capital City.

Washington, May 14.—"On to Mexico City" is now the cry of the Mexican constitutionalists.

Attaches of their confidential agency in Washington are jubilant over the news which came to the navy department from Admiral Mayo, which confirmed their own advices to the effect that the Mexican Federals were evacuating the city over the railroad leading toward San Louis Potosi.

The constitutionalist confidential agents here say this blow would be fatal to Huerta and that they would be occupying Mexico City in less than a month. The constitutionalist plans, as explained here, are to hold Tampico, collect customs and enter stores and war material there, and then push the attack on Saltillo and San Luis Potosi.

Saltilo, the capital of the state of Coahuilla, is to be the next point of attack by the constitutionalist forces in northern and eastern Mexico. General Gonzales will leave at Tampico a garrison just large enough to hold the city and maintain order, and with half this army will return to Monterey over the railroad. He may leave about 3,000 men at Tampico under command of General Louis Caballero. At Monterey Gonzales will be joined by 2,000 constitutionalists garrisoning that place under General Villareal. The amalgamation of these forces will give General Gonzales, the command of 5,000 men who will at once advance on Saltillo, sixty-nine miles by railroad.

It is understood that General Maas has not more than 4,000 men under his command at Saltillo. At the time that General Gonzales approaches from the east General Villa will be attacking from the west. Constitutionalists here say that Villa has 15,000 men, thirty pieces of field artillery, forty modern machine guns and ample ammunition.

General Zaragoza, whose forces have evacuated Tampico, will, it is believed, try to reach San Louis Potosi, and reenforce the Mexican federal garrison there. The constitutionalists have information which leads them to assert that there are only 4,000 federals at San Louis Potosi. They say they do not believe Huerta will dare send more men from Mexico City for the relief of San Louis Potosi, but will elect to await the result of the battle there and make his stand at some point south of San Louis Potosi

VIRGINIA AT THE EXPOSITION

Chairman of State Commission Pleased With Plans For State Exhiit.

WILL HAVE MT. VERNON

Plan to do so Defended Against Criticism—Big Agricultural Exhibit to be a Feature.

Richmond, May 14.—Chairman W. W. Baker, of the Virginia Commission for the Panama-Pacific International Exposition, much pleased by the generous action of the executives of the Virginia Railways in offering to install an impressive agricultural exhibit in the State building, said yesterday that the commission will go ahead under full steam with the preparations to reproduce Mount Vernon at the exposition and give Virginia the most attractive exhibit at San Francisco.

Mr. Baker said that the arrangements for a substantial physical exhibit of the resources of the State would not call for any changes in the plan for the reproduction of Mt. Vernon, as the original scheme in the minds of the commissioners had taken such a possibility into consideration. The Virginia commission, composed of Chairman W. W. Baker, of Chesterfield; Delegate John T. Lewis, of Mecklenburg, and Senator Saxon W. Holt, of Newport News will leave Richmond for San Francisco on June 6.

This trip is being taken in order for the commission to select a site in the exposition grounds for the erection of the Virginia Building and to arrange with a San Francisco contractor for the building of the new Mount Vernon. The commission will be accompanied by Charles K. Bryant, of Richmond, the architect chosen to draw the plans for the State building.

It was originally planned to leave the city on June 4, but the commission decided to postpone the journey two days.

Chairman Baker came out yesterday with a warm defense of the commission's action in reproducing Mt. Vernon, an action which has been under fire from many critics.

"People who think that the commission is going to install for the State an exhibit of only that part of Virginia history which is under ground are very much mistaken," said he. "But we are determined to combine in an effective and striking way the historical riches of Virginia, for which the State is so well known, and her vast agricultural and mineral resources for which she is not so widely famous. Strangers coming to the Virginia Building for sentimental reasons will linger to be impressed by the proof of her industrial and agricultural progress.

"There are thousands of people in the West who are descended from Virginia stock. These people will want naturally to come to the Virginia Building for sentimental reasons. We will gratify their sentimentality by the character of the building and awake their admiration by the physical exhibit of the State's resources' which we are to install on the inside. Fully two-thirds of the building is to be given over to the display of the mining, manufacturing, agricultural and timber resources of Virginia."

WILL MEET AT SEATTLE.

Dr. F. R. Smith Becomes Imperial Potentate of Shriners.

Atlanta, Ga, May 14.—After one of the shorpest fights in the history of the Mystic Shrine, Seattle, Wash., was granted over San Francisco, the honor of entertaining the nobles in 1915.

The committee on time and place unanimousiy favored Seattle, but the California Temples carried the fight to the floor of the convention.

The imperial council promoted the highest officers in accordance with long established custom.

As a result of the accession, Dr. Frederick R. Smith, imperial deputy prelate, of Rochester, N. Y., is now the imperial potentate of the great order, William Irwin joining the ranks of the past imperials.

Through the unexpected resignation of William J Matthews, of New York, the imperial marshal, two places became vacant, and Ernest A. Cutts, of Savannah, imperial captain of the guard, and James S. McCandless, of Honolulu, imperial outer guard, advanced two berths instead of one.

Jack T. Jones, of Oklahoma City, was elected captain of the guard, the next lowest office of the imperial division.

The election came after a hot fight, in which the other candidate was Conrad V. Byckman, of Brooklyn. Byckman later was elected imperial outer guard.

OPENING OF THE FIGHT.

First Mass-Meeting of Association for Local Self-Government.

Richmond, May 14.—The first mass-meeting of the Virginia Association for Local Self-Government, organized for the purpose of defeating State-wide prohibition at the general election, which, it is expected, will be called next September, will take place tonight at the Academy of Music. A call for the meeting was issued on last Monday, and it was signed by more than 400 citizens of Richmond. They believe that the proposition to substitute State-wide prohibition for the exising local option laws of Virginia is inexpedient

The principal speakers at tonight's meeting will be Dr Stuart McGuire, Royall E Cabell and Joseph C Tayor. Judge George L. Christian will preside, while Ben P. Owen, Jr., will act as secretary.

The committee on platform and resolutions will make its report, while a feature of the meeting will be music.

LIES DROVE WIFE TO DEATH.

So Declared by William J. Wilson, Who Denies Charges Against Him.

Philadelphia, May 14.—On his return to Philadelphia yesterday with Special Policeman Prendergast, who arrested him in Memphis, Tenn., William J. Wilson declared that lies told about him caused his wife to commit suicide, and that her death was on the heads of those who had slandered him. Mrs. Wilson ended her life in her apartments at No. 5811 Market street, on March 23, after she had been told that her husband was wanted on charges of embezzlement and that he had run away with a girl. He denied the embezzlement charge, and declared that there was not a word of truth in the story that he had left here with a girl.

Wilson left home on March 11. After the death of Mrs. Wilson their two children were taken in charge by a charitable society. Wilson was arrested on a warrant sworn out by George W. Bennethum, of Reading, a member of a film company with which the defendant had been connected. He waived requisition papers and came to this city with Special Officer Prndergast, and he declared that he was ready to meet any charges that might be brought against him. Magistrate Grelis held him in bail for a further hearing.

News reached Washington through official sources last night that Gen. Garcia Rena, one of the highest ranking officers in the Mexican Federal Army, had taken command of the forces outside Vera Cruz, superseding General Maas.

ADJOURNMENT OF THE GRAND LODGE

PLEASANT MEETING.

Visit Old Folks' Home—Chapel Dedicated—Meets Next Year in Richmond.

Lynchburg, Va., May 14.—The grand lodge of Odd Fellows and the State Rebekah Assembly, which met in annual session here Tuesday morning, yesterday went by special train to the Odd Fellows' Orphanage and Old Folks' Home, several miles below Lynchburg, and formally dedicated the new chapel and school building, which was built by funds supplied by the Rebekah lodges throughout the State. The cost of the building was $20,000.

The grand lodge held a brief session yesterday afternoon, and last night, after concluding the secret work of the session, the newly-elected officers were installed, the work being under the direction of Past Grand Master W. E. Allen, of Covington.

Adjournment came about 10 o'clock to meet next May in Richmond. Fully 1,500 visitors attended the meetings, and as far is known, the deliberations of the grand lodge passed off without the slightest friction.

Before adjournment of the Rebekah Assembly, the following appointive officers were filled: Chaplain, Mrs. D. L. Martin, of Lamberts Point; marshal, Mrs. J. Levensohn, of Richmond; conductor, Mrs. Emma W. Guy, of Lynchburg; inside guardian, Mrs. Amelia Colgan, of Hampton; outside guardian, Mrs. Gertie Glover, of Clifton Forge.

The new officers of the grand lodge were completed last night: Grand marshal, Guy T. Horner, of Branchville; grand conductor, W. Ross Southward, of Richmond; grand guardian, B. F. Kibler, of Glamorgan; grand herald, C. W. O'Meara, of Alexandria.

FIRE ON A LINER.

Cunarder Caronia Has Thrilling Experience From Fire.

New York, May 14.—First cabin passengers on the Cunard liner Caronia got into port Monday knowing nothing of an exciting five-hour battle with fire in the hold on last Saturday morning. Second Officer Hawkins was overcome by smoke, and the panicky steerage passengers required the control of the officers. It was a costly blaze, destroying a large part of a consignment of Oriental rugs.

The Caronia left Lverpool on May 2. On Saturday morning two seamen reported to Capt. C. A. Smith that there was a fire in hatch 5. Second Officer Hawkins was met by a dense uprush of smoke when he opened the hatch. Despite his smoke helmet the officer was overcome, and had to be rescued by the crew. The blaze was not extinguished until the hold had been flooded.

The steerage passenger became aware of the fire immediately, and many of them rushed about screaming and demanding life preservers. Captain Smith threatened stern measures to restore order. The exciting incidents of the day were kept from the saloon passengers.

Francis Skinner, a millionaire of Boston, died of heart disease on board May 5. He was seriously ill when he went aboard at Liverpool. He went at once to his cabin and never left it. Dr. J. F. McDermott, the ship's surgeon, did all that could be done for him. An undertaker boarded the ship at quarantine to prepare the body for shipment to Boston.

The Caronia arrived after a slow passage, owing to her firemen going on strike before sailing from Liverpool. A new squad of green firemen replaced the regular ones.

TEST WIRELESS TELEPHONE.

Message Sent Through Air From New York to Philadelphia.

Philadelphia, Pa., May 14—The first commercial message by wireless telephone passed yesterday between the Marconi station on top of the Wanamaker Building in New York and the corresponding station surmounting the Wanamaker Store in Philadelphia. This remarkable feat was accomplished after long experimentation by the engineers of the Marconi Company, who selected the wireless station as the most complete and efficient for their purposes.

For the past few months the Marconi engineers, F. A. Hart and H Ernest Campbell, have been working day and night to complete th task they had set before themselves At 3:45 yesterday afternoon the wireless operator in Philadelphia was startled to hear a human voice speaking through the receiving instrument which was covering his ears. He rapidly got in touch with the New York wireles sstation, asking by wireless telegraphy what it meant.

The two engineers and the operator in New York, R. E. Crane, upon receiving this query knew that they had at last broken through the barrier of distance, and carried the human voice without means of wire across the other nearly 100 miles. The message was sent with an ordinary commercial request to the Philadelphia store to rush over to New York some stationery. Later on some music was played at the New York end of the wireless, which was distinctly heard by the Philadelphia operator, T. Appleby.

In every way the experiments have concluded with success, and preparations are now under way to equip the Philadelphia Wanamaker wireless station with the particular kind of transmitting instrument needed for sending telephone messages.

Score Board This Morning Shows $28,180.45 For New Hospial.

$387.00 ADDED TODAY.

Alexandrian, Now Resident of St. Louis, Sends Check For One Hundred Dollars for New Building.

The score board this morning of $28,180.45 showed an increase of $387 (the contributions will be seen in the list below.) The committee desires to point out the fact that the work laid out this week to reach the thirty thousand mark and thus insure the hospital being built is so well under way that they trust that during the next two days everybody interested in this matter will send in their contributions as far as possible, so that when the score board is calculated on Saturday night, it will exceed the thirty thousand and leave remaining part of the canvas in which to secure the extra twenty thousand dollars.

It was not expected that contributions would come in as rapidly this week, because the committee was not pushing the canvass as heretofore stated but they will begin again on Monday and being gratified with the encouragement the receipts of the unexpected large contributions made during the week, they will work with a new vigor.

There are quite a number of contributions promised which have not been sent in, which if received before Saturday night will materially increase the amount desired. Every contributor by seeing one of his friends, could very readily secure small or large amounts the money necessary to accomplish the great work that has been undertaken in the interest of our city and adjoining counties.

It will be seen that one of the large contributions in the list was that of Mr. A. W. Lambert, a former Alexandrian, who now resides in St. Louis.

Will Execute Emissaries.

Nogales, Sohora, Mexico, May 14. —A proposition from the Secretary of the Interior at Mexico City that the Constitutionalists send a commission to the capital to arrange for the amalgamation of all contending parties in Mexico was transmitted Tuesday to General Alvarado by General Tellez, the Huertista commander at Guaymas.

Tellez offered to send a Federal commission to the rebels to make preliminary arrangements, but Alvarado replied that he would promptly execute any emissaries sent into his lines.

In his reply Alvarado said the Federals were murderers and traitors, and that the destinies of Mexicans were in the hands of Carranzo.

AN IDEAL ELECTION DAY

Bright and Crisp Conditions Greet Candidates and Their Friends This Morning

The election for members of the Board of Aldermen and Common Council which began at sunrise this morning has been quiet, although the candidates nad their supporters have been wide awake and have endeavored to bring out a large vote. The great mass of the community, however, have not manifested the interest it was supposed a few weeks ago they would take in the contest, and conditions around the polls have been serene.

The twenty-three citizens who are anxious to serve the city in a legislative capacity have been prominent around the voting places, and while there has been but few attempts to urge their clams upon voters, there was some buttonholing.

The polls were opened promptly at sunrise, and many suffragans deposited their ballots before engaging in their daily avocations. Others postponed exercising the right of suffrage until the dinner hour, while numbers, as is usually the case, will not vote until their day's work is at end.

The uncertainty concerning the outcome which was noted yesterday was in evidence again today. In some instances the indications in the respective wards pointed to the success of certain candidates, while in others the outcome was as uncertain as the drawings in a lottery.

Under the present election laws, a large percentage of citizens voluntarily disfranchise themselves by neglecting to pay their State taxes six months in advance. This generally cuts off about two-thirds of the eligible voters who fail to qualify for reasons best known to themselves. The bulk of those who are allowed to cast ballots are of a class who make up their minds weeks in advance and keep their own counsel.

The vote cast up to three o'clock this afternoon was as follows:

Frst Ward	207
Second Ward	243
Third Ward	217
Fourth Ward	225
Total	892

KILLING OF WM. BRIGHT

Coroner's Jury Renders Verdict That the Shooting Was Justifiable

A coroner's jury summoned by Justice. George Stuart, of Fairfax county and consisting of H. A. Downman, foreman, W. W. Demaine, William Desmond, Alvin Powell, Talbot McCuen, and B. B. Brown, returned a verdict yesterday afternoon that the killing of William Bright by Special Officer L. C. Rector of the Southern Railway, yesterday morning was justifiable homicide. Bright was 35 years old. As was stated in the Gazette, Brigha died in the Alexandria Hospital at 3 o'clock yesterday afternoon. He was shot by the detective while resisting arrest. His companion, Lawrence Petty, who is suspected of having assisted Bright in robbing a freight car of tobacco and candy, was given a prelminary hearing this morning by Justice Stuart, of Fairfax county.

The shooting of Bright occurred on Duke street, extended or what is known as West End, in Fairfax county, a short distance west of the city, where Rector and Frederick Boyd, another railroad detective, had gone in response to a telephone message stating that two men had just robbed a freight car and were proceeding toward this city. The detectives encountered Bright and a young man named Lawrence Petty, and called upon them to halt, whereupon, according to the officers, Bright dropped a caddy of tobacco and drew a revolver and Petty ran Expecting to be shot, Rector, it is said, fired, and Bright fell. In the meantime Boyd chased and overhauled Petty, and he was lodged in the polce station in this city. Bright was removed to the hospital in an ambulance and was attended by Drs. Wm. M. Smith and M D. Delaney.

At police headquarters Petty denied that he and Bright had robbed a freight car, and declared that the caddy of tobacco was lying on the roadside when he and his companion met the detectives.

The New Millinery for Summer

The Dainty White Hats in shapes and styles for street and dress have sprung into unusual popularity; each one has features that mark it as individual.

Two of the models are white, one of horsehair braid and the other of hemp. This hat is priced at $15.00.

NEWS OF THE OLD DOMINION

VIRGINIA DAY AT EXPOSITION.

Governor Stuart Asked to Present Flag of State For The Occasion

Richmond, Va., May 14.—Governor Stuart yesterday received a letter from the American Commissioner General of the Anglo American Exposition,notifying him that the opening ceremony at Shepherd's Bush, London, will take place today, May 14th, and requesting him to present the American section of the exposition with the State flag of Virginia.

The flag is to be flown over one of the buildings devoted to the American section, and also over the main entrance to the exposition on the occasion of Virginia State day, August 10th, which day is to be set aside for special celebrations in honor of the State and approved by the Governor.

The idea of state days has been received with warm approval by several governors, and a number of them have already expressed willingness to present the State flag to the exposition authorities on the other side of the Atlantic.

In view of the close proximity of the opening of the exposition, the American Commissoner General has now removed his offices and staff from the Woolworth building in New York to the exposition grounds, London,and is rushing things forward on behalf of the American section, which will be thoroughly representative of all that is best in arts, sciences and industries of this country. Already a large number of American exhibits have been installed in the exposition palaces at Shepherd's Bush.

WEB TIGHTENS ON SUSPECT.

Indictment Confidently Expected in Green Springs Murder and Arson Case.

Louisa Courthouse, Va., May 14.—With the burning early yesterday morning of the Chesapeake and Ohio depot at Green Springs and the incendiary attempt on the store of Victor Hall, who was shot to death early on the morning of April 15, added emphasis has been given to the inquiry into his murder and an indictment of the person whom nearly everybody in Louisa county suspects may be returned within the next few days.

More than ever the finger of suspicion is directed to this one person. Commonwealth's Attorney Bibbs has said that all the physical facts in the case bear out the theory he has held in common with detectives and others who have interested themselves in what once promised to be a mystery that would go unsolved.

The destruction of the depot at Green Springs shortly after 1 o'clock yesterday morning and the apparent attempt to burn down store of the murdered merchant, are believed to have been but the efforts of Hall's slayer to cover up the evidence which might lead to indictment, conviction and finally the electric chair.

Mrs. Elizabeth Hall, wife of the murdered merchant, and her two daughters, Effie Dunkum, 16 years old, and Mamie Dunkun, 12 years old, were in the store when the fire was discovered by Mrs. Hall.

They asserted that Negro and Roger were the best of friends, and that Roger called on Negro early in the evening and urged him to take a walk with him. It was then that Negro turned on Roger and slashed his throat. Negro then cut himself across the hand and ran down to the foot of Henry street, jumping into the river.

Only Person Injured When Two Men Blaze Away at Each Other on a Crowded Corner.

New York, May 14.—Two young men met at Eighteenth street and Ninth avenue, at 6 o'clock last night, and engaged in a heated argument. Persons who passed heard them mention the name of a girl. The employees of the National Biscuit Company, of whom there are close to 1,000—a majority girls—came from the big plant half a block away as the men began to fight with their fists. Then they took positions on either side of the street, drew revolvers and began to shoot. After each had emptied his weapon they ran in different directions and escaped.

As they fled an elderly man threw up his hands and fell. Policemen came and found he had been shot in the left breast. In the New York hospital he described himself as Phillip Moretti, aged 69, of No. 244 Thompson street. He wore an overcoat, two waistcoats, a shirt and two suits of underwear. NEWSPAPER PROFESSION.

The newspaper profession is as sacred a calling as the ministry is the opinion of Dr. Washington Gladden, of Columbus, O., as expressed in an address made before hundreds of newspaper men at Lawrence, Kan., at the national conference being conducted by the University of Kansas.

Dr. Gladden described what he referred to as a tendency of some news papers toward "habits of exaggeration" and the exploitation of crime, vice and scandal. He outlined four great tasks for American journalism: First, to teach the people to avoid exaggeration and violent speech; second, to resist the tendencies which dementalize democracy and which substitutes the mob mind for the deliberate habit; third, to hold the popular judgment firmly to the truth that character and manhood and not money and popularity are the central values of human existence; fourth, to turn the thoughts of men more and more from the negative virtue of detecting and exposing the evil to the positive virtue of discerning and praising the good.

Dr. Gladden's observations are worthy of note. Many people, unfitted by nature or experience, for the journalistic profession, imagine that the object of a newspaper is to make fun out of everything, funerals not excepted. Their career is generally short, as the community soon grows tired of such wielders of the quill. Another class of mistaken persons suppose the real mission of a newspaper is to fight everything on general principles. They fail to see anything good in this world, and their incessant carpings sooner or later render them objectionable to their readers, and eventually they pay the debt of nature.

The newspaper graveyard contains many sleeping enterprises that might have succeeded had they had at their head men who understood communities and catered accordingly.

In this day news is what the great mass of people want, not editorial observations. Half a century ago tastes were different The editorials aided considerably in the formation of opinion, and Greeley, Bennett, Raymond Brooks, Weed and others in New York, wielded great influence in their day, as did Ritchie, the Pollards, Daniel and others in Richmond before and during the civil war.

The power of the New York Tribune in the north, and that of the Richmond Examiner, Charleston Mercury and other journals of the South, will be remembered by many still living.

They all added to the bitterness which existed in both sections of this country shortly before and for some time after the close of the four-years' conflict. In 1860 the circulation of the New York Tribune was forbidden in the South, as was also Hinton Rowan Helper's book, "The Irrepressible Crisis" The interdiction naturally caused many persons to seek both, and the book and the newspaper were smuggled south of the Mason and Dixon's line.

Marines and Bluejackets Make Splendd Record at Vera Cruz...

Washington, May 14. —Secretary Daniels announced proudly today that he had Admiral Fletcher's word for it out of the 6,000 American sailors and marines who were landed at Vera Cruz when the city was seized, not one was at any time found drunk or under the influence of liquor. The secretary agrees with Admiral Fletcher that this makes a new record for the navy, and in fact for any navy of the world.

"The order will go into effect July 1," replied Secretary Daniels firmly in an inuiry as to whether the President disapproved his plan to prohibit the naval regulations as to prohibit the bringing of any intoxicating liquor aboard ship or onto a naval reservaton.

AFFLICTED AT SHRINE.

Lame, Halt and Blind Attracted by Stories of Miraculous Cures.

Chicago, Ill, May 14.—The lame, the halt, and the blind were among the 9,000 persons gathered about St. Rita's Roman Catholic Church yesterday, attracted by stories of the miraculous powers of St. Rita's Shrine, said by Rev. Father Joseph Greene who brought it from Rome,to contain a portion of the leg bone of St. Rita.

The pilgrimage is an annual event, always marked by stories of wonderful recoveries from affliction of some of those who attended the novena. Last year the novena developed several stories of crippies who threw away their crutches, of the blind who saw and the dumb who spoke. Father Greene when asked for confrmation of these stories, was careful to state that "so the patients told me." He did not vouch personaly for any "cures."

At the Christian Temple, on Fulton avenue, Baltimore, of which the Rev. Dr. Peter Ainslie is pastor, a departure in the long-established custom of that and the majority of other Protestant churches was made at the service last night. The Wednesday night service as a prayer meeting has been abolished and in its place a regular church service instituted. This new method will be continued, with regular preaching, the full choir and the whole church in activity as on Sunday.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui *today*. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted in prospective settlers in throwing open Twenty Thousand Acres of Rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish potatoes, cantaloupes, water melons, corn, oats, cotton, hay—in fact all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classifacations prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to the land of plenty, to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself and land is the basis of all wealth. Owners of productive lands are benefitting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracks is that they plant or, arrange a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to $1,268.45, and that one acre of well-cared-for paper-shell pecans, in full bearing, should net its owner as high as $500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further arguing, and waste no time in locating on this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it, otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year.

Our Aim is For Mutually Beneficial Results.

As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold and increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening similar to those of the Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will be cheerfully permitted, and the opening will be held at Browntown, Wayne county, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend, for there will be no favoritism shown any one. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With an ever-increasing population of this country there is no corresponding increase in the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. **You must realize that this may be your last chance to secure land in this country without a large outlay of capital,** so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

NEWS OF THE DAY

Charles A. Stillings, former public printer, was sued yesterday in the Supreme Court of the District of Columbia by Anna R. Stillings for a legal separation and permanent alimony. Mrs. Stillings alleges misconduct, but states that she does not know the name of the corespondent. The Stillings marriage took place at Harpers Ferry, W. Va., April 29, 1905.

Because he did not like a job at his home of William M. Magruder, at Goshen, Md., Richard Hawkins, a 14-year-old negro, according to a confession made yesterday to State Fire Marshal Myers and Sheriff Peyton Whalen, set fire to the Magruder home, which was destroyed, April 15. The boy said that his mother would not allow him to give up his position, so he decided to make his services unnecessary by destroying the house. Judge Macc committed the boy to jail for the action of the November grand jury.

The Association of American Physicians concluded their conferences at Atlantic City, N. J., yesterday afternoon at the Marlborough-Blenheim with the election of the following officers: President—S. J. Meltzer, Rockefeller Institute. Vice president—Henry Sewell, Denver. Secretary—George M. Kober, Washington. Recorder—Thomas McCrae, Philadelphia. Treasurer—J. T. Crozer Griffith, Philadelphia. Councilor—W. S. Thayer, Baltimore. Executive Committee—Theodore C. Janeway, Baltimore; alternate, Richard Strong, Washington.

The London Standard says that Sir Edward Grey, British Secretary for Foreign Affairs, has had under consideration a dispatch from Sir Lionel Carden, the British Minister at Mexico City, dealing exhaustively with the whole Mexican situation. This is to be submitted to a Cabinet meeting, together with the Foreign Secretary's notes theron. It is understood, according to the Standard, that Sir Edward advises that no useful purpose will be served by South American mediation and that he will indicate a line of policy which will go far to minimize the possibility of further bloodshed.

Two hundred Macedonians were massacred yesterday at Ristovatz for refusing to swear allegience to the King of Servia, according to an unconfirmed dispatch received in London from Berlin.

Five pilots were drowned off Cardiff, Wales, in Bristol Channel yesterday when a pilotboat was rammed and sunk by the British steamer Star of New Zealand. The pilotboat was carrying helmsmen to inbound ships, to steer them into the harbors, when she was run down in a fog. The boat sank so quickly that the men could not be saved.

Southern Methodism will continue to recite the apostles' creed containing the phrase "The Holy Catholic Church." This was decided at yesterday's session of the general conference of the Methodist Episcopal Church, South, at Oklahoma City, Okla., when the committee on revisals' report recommending the elimination of the phrase and substituting "The Church of God" was defeated. A vote by orders requiring a majority of each class of delegates was taken, resulting in ayes, clergy, 74; lay, 85. Noes, clergy, 84; lay, 58.

Representative Carter Glass, of Virginia, chairman of the House banking and currency committee, announced yesterday that he would not accept as final the decision of the Democratic caucus of Tuesday that the program for the rest of the session should be limited to antitrust, legislation and the regular appropriation bills. After he had talked the situation over with the President at the White House, the Virginian said he expected that this Congress would enact some supplemental rural credits legislation, but that this would be postponed until the Federal reserve act has been tried out.

John R. Silliman, the American consul at Saltillo, who has been held by the federal authorities for some time past, was expected to arrive at Mexico City last night, and will be turned over to the Brazilian legation. It is probable that he will be sent to Vera Cruz today. The French embassy in Washington yesterday received advises from the French legation in Mexico City stating that United States Vice Consul John R. Silliman, who had been held by federal authorities in Saltillo, was on his way to Mexico City under guard.

Fourteen men were drowned yesterday when a steam collier was capsized by a high wind off Southwold, England.

SENT TO WORKHOUSE.

Disturbers of Public Worship Receive Sentences in New York.

New York, May 14.—Bouck White, clergyman, author, socialist, a Miss Milo Woolman, a writer, both Harvard graduates, were sentenced to Blackwells Island workhouse yesterday by a police court magistrate for their participation in the disorderly scenes enacted last Sunday morning at the Calvary Baptist Church, of which John D. Rockefeller and John D. Rockefeller, Jr., are attendants.

White and Miss Woolman were two of a group which invaded the church during the services to make a public request of the pastor, the Rev. Cornelius Woelfkin, to consent to debate the Colorado mine situation. A patrol wagon was called to the church after a demonstration in which White and his followers resisted efforts made to eject them.

White and Woolman were each sentenced to serve six months. Emanuel Lopez was given ten days, and five others, including Woolman's wife, were placed on probation for six months. White announced that he would appeal.

Instead of showing humility and acknowledging his wrong in court, White talked about the right of free speech. Magistrate Campbell said in sentencing the clergyman:

"As a university graduate and an ordained minister of the gospel, his actions and conduct, all things considered, are simply incomprehensible.

"He, of all men, should have been the last to foul and profane the house of worship and to use it as a means of advertising himself and his views."

"I feel newly dedicated to the cause," White exclaimed after sentence was pronounced. "The work will go on without me."

White was graduated from Harvard in 1896, and from the Union Theological Seminary in 1902. He was ordained in the Congregational ministry in 1904, and since 1907 has been prominent in church work in Brooklyn.

HALTS COXEY'S ARMY.

Sheriff Finds Stolen Spread in The "General's" Buggy.

Hagerstown, Md., May 14.—Coxey's Army was held up at Halfway yesterday by Sheriff Otto W. King, who was armed with a search warrant, long enough for the officer to recover a rubber spread that had been stolen from Clarison Bros.' livery stable here, where the "soldiers" slept last night.

The spread was found in "General" Coxey's buggy, where it had been placed by one of the privates who used it in last night's storm.

Coxey made no protest, however, against the search. His wife, who rode in the buggy with him, said she thought the spread was one of those they had put in their buggy when they started from Massillon, Ohio, on their march to Washington.

Commissary Sergeant Murray and Private Every, stable yesterday morning. J. E. Curtiman, an employe, missed the spread, two moneys, wrenches and other articles. Suspecting Coxeys men, he swore out a search warrant before Justice Cohn Anthony. None of the other articles was recovered.

No arrests were made and the Sheriff permitted the "army" to continue its march to Williamsport.

Majority for Repeal.

Washington, May 14.—An unofficial poll of the Senate yesterday showed that the President had a clear majority of 11 votes in favor of the repeal of the exemption clause of the Panama Canal act.

This poll has been checked up by the President's friends in the Senate and they agree that it is as nearly accurate as anything of that character can well be. Changes in votes are of course possible up to the very last minute, but if the Senate ballots as it now promises the repeal resolution will pass by 11, and perhaps a bigger majority.

In all, there appear to be 53 Senators who are openly in favor of repal. Of this number, 12 are Republicans and 41 Democrats.

At present there are at least 36 Senators who oppose repeal. Of this number, 9 are Democrats and 27 are Republicans.

Six senators have declined to state their position on this question.
